MRS. MILLWARD AT GILLY DAY (page seven).

FROM THE HEADMASTER

Where to start? The year is rocketing along on a wave of accomplishment and success in many areas, and words can never hope to capture the spirit, enthusiasm and drive that is so much a part of your School.

On the Academic side, thirty percent of our students received First Class Honours at Christmas. Of this group, six are in our Seventh Form which would indicate that our record of University acceptances should be as strong this year as it was last. And last year the record was one hundred percent! As well, our top student and Head Prefect, James Booth, has recently received a perfect score in his Mathematics SAT, and a perfect score in his Physics College Board Achievement Test. In other areas, this student made two errors in his English SAT, and four errors in his English Achievement Test. And lest any of you should worry that we are emphasizing the development of but one side of this young man's character, I should point out that he represents the School on First Team Soccer, Cross Country Skiing and Rugby, plays in the Band, sings in the Choir, leads our Debating Society and is a thoroughly popular and respected member of the School. All of which may lead some skeptics to feel that, because I have singled him out, this young man is totally exceptional. Not so. His College Board Scores certainly are, but in many other ways he is a good representative of the majority of our students: bright, articulate, and involved. In short, the academic tone and standard of the School is **very** strong, and getting stronger.

And in other areas we continue to thrive. The Players Club is involved in two major productions this year, and Junior Plays, Noon Hour Theatre, and Drama Workshops keep our Little Theatre (a euphemism for the stage in the gymnasium) in full use. Our Band goes from strength to strength, and this year played at the School's Armistice Service, in Lennoxville and in Knowlton. Bandsmen also provided a spirited Chapel of Christmas Music during Examination Week. The Carol Service on December 18 was one of the most moving within recent memory, with Choir and Congregation combining for a fitting sendoff to a most successful Term.

On the Athletic side, our Teams continue to display the grit, tenacity, and skill that have earmarked BCS as a "tough little School." Junior Boys Soccer were the ETIAC Champions. Senior Boys Soccer were League Champions, and winners of the LCC Tournament Championship. Senior Girls Soccer won the League Championship, and the Girls Cross Country Team won the Zone Championship. Our Cross Country Team also provided the Provincial Cross Country "under eighteen" Gold Medalist — Fraser Bertram, a student in our Fifth Form. In Football, the Junior Team won the League Championship, while the Senior Football Team won the Zone Championship (the J.C. Ellyson Trophy), the BCS Old Boys Cup (vs Ashbury), the Senator Howard Trophy (vs Stanstead), and the Shirley Russell Cup (vs LCC). An impressive record, and as the winter months roll on our Hockey, Basketball, Volleyball, Squash and Cross Country Teams continue to uphold that record.

Under the umbrella of "outreach" the School raised a considerable sum for the Ethiopian relief fund and for the Old Brewery Mission in Montreal. Five of our students were part of a summer recreation project, sponsored by the School's growing association with the Round Square, with the Nascapi Indians in and around Schefferville, Quebec. The project was headed by Robert Common who has been invited, by the Nascapi, to repeat the project in Summer 1985. As this is being written, Mr. Common and two of our Senior Students are in Arizona, taking part in the Okanella Conference (the North American branch of the Round Square) and its planning for Project Mexico. Twenty-two of our students this year are participating in the Duke of Edinburgh's Award programme, a significant part of which is involvement in Community Service.

And I could go on. Suffice to say that the place is alive with electric, productive, directed energy. Our Rugby Team, as noted elsewhere, is preparing for their tour of the Scottish Border Country. Ten other of our students will be visiting the UK and France during the Easter Break, while another twenty-five are having weekly sessions of Russian language and culture preparatory to a two week trip to the Soviet Union during the same (Spring) Holiday.

How to conclude? Probably with an invitation to you all. If you are down, in despair, fed up, in the grip of the February Blues, come down and spend a day with us. You will find it a rejuvenating and refreshing experience.

D.A.G. Cruickshank, M.A.

K.H.C. ALUMNA APPOINTED CHAIRMAN

Shirley (Harrison) Stoker K.H.C. '46 shares an anecdote with Headmaster David Cruickshank.

The Board of Directors of Bishop's College School is pleased to announce the recent appointment of Shirley (Harrison) Stoker as Chairman of the Board.

Shirley spent six years at King's Hall before going on to the Montreal Museum of Fine Arts for two years of further study. Shirley has served on many Volunteer Boards, notably as co-President of the Volunteer Committee at The Montreal Museum of Fine Arts. She also was co-Director of the Visual Arts Centre and she has been a director on the Bishop's College School Board of Directors for the past three years. Shirley was highly involved in the celebrations for Dr. Gillard's ninetieth birthday and was the moving force behind "The Gillard Lectures and Debates." Indeed Shirley's record of service is a testimony to King's Hall and the values inculcated by "Gilly" in her many years as Headmistress.

Shirley is married and has three children. Her connection with Bishop's College School through her own family as well as her husband's Patrick McG. Stoker is very longstanding. Her father Sladen St. B. Harrison and uncle Austin St. B. Harrison were Old Boys of the School. Her husband Patty and his two brothers Desmond and Guy Drummond were also at BCS as students. Desmond's children, Dacre and Tara as well as Shirley's daughter, Carlotta are all alumni.

We look forward to the years ahead and the leadership of Shirley as Chairman, the first woman to fill this position. We know that she will bring to this not only her wisdom and astute judgement but also her humour which the picture above attests.

QUESTIONNAIRES!

Alumni have received several questionnaires from the Development office this fall. There was a general questionnaire sent with the last Bulletin which many of you filled and returned. These were received with great thanks. Those of you who have not done so and who still have them, PLEASE sit down and take a few minutes to fill them out and return. They are what have made the News of the Classes in this issue so much fuller and more interesting. They also contained questions and suggestions which are helpful to us at BCS in the Alumni Office.

MANY SUGGESTED THAT CLASS LISTS OR CITY DIRECTORIES OF ALUMNI BE COMPILED AND MADE AVAILABLE AT A CERTAIN COST TO ALUMNI.

These are available and presently through the work of the class representatives on the Annual Appeal, being constantly updated and enlarged and improved. If you would like to have a list of your class or of those in your geographical area, we would be happy to send this list to you. A class list will be sent to you in return for \$5.00 and a geographical list at a cost of \$1.00 a page. The most expensive directories would be Toronto and Montreal, at \$15.00 each.

IF, YOU ARE ORGANIZING A REUNION OR EVENT OR UNDERTAKING TO ASSIST WITH FUND-RAISING OR HELPING WITH UPDATE OF RECORDS, IT WILL BE OUR PRIVILEGE TO ISSUE YOU WITH THESE LISTS ON A COMPLETELY COMPLIMENTARY BASIS.

Graduates of leaving classes 1965 to 1975 also received questionnaires, suggesting a reunion to take place either June 21-23 or July 26-28. There have been 28 responses to this questionnaire to date. We are very anxious to plan a reunion with FUN, NETWORKING and CONTINUING EDUCATION. There is a fuller report, following. Michael Zinay, Michael Lacasse and Harvy Simkovits have spent hours of their time envisaging this event for you. We ask you to respond.

Ursula Evans, Alumni Director

A CASE OF HEARTWARMING ALUMNI SUPPORT

Jennifer Livesey, Kate Jobson with Michael Shotter.

For the last two years, we have been fortunate in having the student ranks augmented by British Exchange Seniors. These arrangements have been made largely through the English Speaking Union.

This year at BCS are Jennifer Livesey, Catherine Jobson and Michael Shotter. BCS Students abroad are Julie Cruickshank, Joni Scheib and Catherine Lyon. Julie is presently at Brundell's School, Joni at Lindisfarne College and Catherine at Ancaster House School.

We know that our Canadian ambassadors have met with great kindness in Britain. So too have their counterparts here at BCS. Before Christmas, Jenny, Kate and Michael took a trip to discover the city of New York.

Alumni, Joan (Williams) Ballantyne KHC '48 and her husband Tim BCS '48, Jean (Dodds) Kazi K.H.C. '45 and her husband Ralph and Ann (Cameron) Mitchell K.H.C. '51 and her husband Brad B.C.S. '53 took the three wanderers into their homes as well as helped them to orientate themselves in the BIG APPLE.

Every household in the weeks just before Christmas is in a state of tension so it is with special gratitude that THE BULLETIN salutes these alumni.

This is the second issue of The Bulletin in a row that this particular group of alumni have been in the limelight for thanks from the school. Last spring they were host to a class from the school, visiting New York as well as all area alumni for a reunion dinner. **This is heartwarming alumni support "par excellence."**

1985 RUGGER TOUR TO SCOTLAND

While this winter's snow is still investing the playing fields along Moulton Hill, the green pitches of Edinburgh and the Scottish Borders will be welcoming a touring rugby side from B.C.S. As soon as the Lent term ends, twenty players and three masters depart for Heathrow, Twickenham, and the Calcutta Cup match between the Scotland and England XV's on Saturday 16th March. Then after a shakedown practice to help get their feet on the ground the touring party travels to Edinburgh where Merchiston Castle School and Loretto School will each provide accommodation, coaching clinics, and rugby matches during the first week.

Merchiston is notable for the fact that in the 1880's and 90's several of the senior schoolboys played for the Scotland XV in the earliest internationals.

Edinburgh lends itself to the tourist whether he be interested in mediaeval high-rise residences along the Royal Mile, the folk singing in the Nicky Tams pub, the golf courses of the Braids, or a long walk over the ancient Pentland Hills.

The last part of the tour sees the boys in the heartland of Scottish rugby, the Borders town of Melrose, where members of the renowned rugby club have offered to billet the students in their homes during the two days of coaching and games.

There can be no doubt that the touring players, whose ages run between 15 and 18 years, will bring home a host of treasured memories and new friendships, as well as some invaluable rugger skills and coaching techniques to pass on to the younger players when the Montreal league begins in April.

ROBERT COMMON

You are invited to the Toronto Alumni Theatre Night, presenting . . .

The Government Inspector

. . . an hilarious comedy in which the ingratiating leaders of a provincial Russian town are hoodwinked by a penniless clerk in a frenzied farce of mistaken identity. Written by Nikolai Gogol.

"... a wonderful production. Great entertainment!" Lewis Evans Sr.
Tadoussac Tabloid

"Magnifique! Incroyable! Extraordinaire!" Mademoiselle
King's Hall Per Annos

"Be there, or else . . ." Maj. Sam Abbott
Canadian Forces Drama Review

- Friday, May 31, 1985, 8:00 p.m. curtain — St. Lawrence Centre, Front St., Toronto
- Afterwards stay for a 'late night theatre bite' and an opportunity to catch up with old friends.
- Tickets: \$25/person (for performance and after-theatre bite)

BCS ALUMNI HOCKEY

BACK ROW: Jacques Ouimet ('73), Tim Bradley ('67), Dave Fuller ('75), Bruce Hodge (Guest), Stuart MacTavish ('75), David Bonnett ('76), Fred Kaneb ('76), Bill Price ('76), Gord Price ('77). **FRONT ROW:** Richard Vaughan ('76), Greg Boyd ('81), David Stenason ('75), Peter Bishop ('76), Tony Ross ('75).

After a two year hiatus, the BCS Alumni Hockey Team has again been assembled to participate in various Old Boys Tournaments throughout the winter.

Joining what has become a fairly extensive Old Boys Hockey network based in Montreal, the BCS squad most recently played in a tournament held November in Stanstead. Competing against teams from Lower Canada College, Loyola H.S., Westmount H.S. and Stanstead, BCS came out second best, losing all their games by close margins. David Stenason ('75) emerged as leading scorer while notable performances were turned in by Tim Bradley ('67), Richard Vaughan ('76) and Dave Fuller ('75).

The team will next see action on March 23rd and 24th in Montreal as LCC hosts its annual tournament. Despite our under-rated talent, the team expects to do better and no doubt everyone will have a good time!

Many thanks to Cliff Goodwin for his great cooperation. He must be proud to see how his former stars are playing today!

Stuart MacTavish BCS '75

NEW DIRECTORS!

A warm welcome to Michael Huband, Jean-Claude Baudinet, Jane Dunn, John Hallward, Sharon Johnston, Michael Skutezky and Gavin Stairs, all new members of the Board of Directors of the B.C.S. Association. Kip Cobbett has become the Vice-Chairman of the Board of Directors.

Daniel Lalonde has become President of the BCS Alumni Association. We are so fortunate to have these Alumni and parents assume board responsibilities as we look forward to 1986-1987 and our sesquicentennial.

REUNION 65-75

PROFESSIONAL DEVELOPMENT!

FUN! NETWORKING!

YOU STILL HAVE TIME TO MAKE THE DIFFERENCE

JUNE — JULY 1985

PROFILE: SCIENCE DEPARTMENT

WHAT'S HAPPENING IN THE TEACHING OF SCIENCE AT BCS IN 1985

(The first in a series of two articles.)

CHARLES COLEMAN
Head of the Science Department

THE CURRICULUM

Science begins in second form with an introduction to ecology. How plants and animals coexist on our planet is explored using lots of projects and fieldwork.

In third form there is an introduction to the physical sciences. (Recall the difference between velocity and speed?? A mixture and a compound??).

Fourth form introduces the anatomy and physiology of the human. We progress through the various systems of the body, dissecting appropriate specimens taken from sheep, cows and pigs. The eyeball lab is always a great favourite "Oh Gross Sir! etc. etc." We make good use of a video cassette recorder to interject David Attenborough, Jonathan Miller, David Suzuki et al. into our teaching group! Thank you PBS!

In fifth form both chemistry and physics are offered. Chemistry is the only course for which the government of Quebec provides an external examination. In all the other science courses we set our own exams. There are advantages and disadvantages to this situation. On one hand, we are not held quite so rigidly to the government syllabus (which in certain areas could be improved); while on the other hand, we are not able to immediately compare the performance of our students with other North American schools.

There are however several contest exams in which our students compete. The results of the Sir Isaac Newton Physics exam (circulated by the University of Waterloo) give us a measure of our success vis-a-vis other schools in 1984.

Richard Hoy scored in the top 2%. In the Chem. 13 News Exam James Booth was in the top 9% and Mary Hallward was in the top 22% of the 6060 students who wrote the exam. In the National Secondary School Chemistry Exam, James stood in the top 10 of all contestants.

COMPUTERS IN THE SCIENCE PROGRAM

How are we using computers? Are they taking over? Actually they can be

used very effectively in the laboratory to produce simulations of certain experiments that would otherwise be impossible to perform. In these cases, the apparatus can be seen on the screen and the student is able to change variables and control the running of the experiment by typing at the computer keyboard. Observations are made and data is collected. It is not of course, our intention to replace the "hands-on" lab experience with a dreary keyboard and television screen, but there are times when the computer can be used to advantage.

For example, expense can be a factor. Buying certain large pieces of apparatus such as a spectrophotometer or a chromatograph or a Geiger Counter would tie up a great deal of money in a machine that is only briefly used each year. The computer can simulate these machines.

Another factor is safety. Certain experiments employing dangerous chemicals and/or apparatus are best simulated.

Time is a consideration. Population genetics experiments that would require many years to actually perform can be simulated by the computer in minutes. Furthermore, with more than thirty-five computers available, each student can work at his own pace during an experiment.

Finally, the staff use them as teaching aids. We have our lab apparatus and chemical inventory stored in a data base that facilitates ordering new materials and we type our notes, exams and student hand-outs on the word processor.

SPECIAL PROJECTS

MARINE BIOLOGY

In April the sixth form biology class spends two weeks studying marine science. This mini course, which is actually outside the regular curriculum, culminates with a week long field trip in May to the Huntsman Marine Laboratory in St. Andrews, N.B.

At the Marine Lab we use the research vessel to make collections from

the deep with trawls, plankton nets and water collecting bottles. The students plot temperature and salinity profiles and collect specimens in a systematic way from the different intertidal areas along the coast. In the lab they have lectures and learn to use keys to identify their specimens.

GUIDED NATURE WALK

The seventh and second form biology class has made a start in the development of a self-guided nature walk that will wind through the BCS woods behind the school. The walk will ultimately consist of a dozen or so sites where the various plants and physical formations will be described by discrete signs and labels.

Each year the students will work together to prepare one or two of these sites as a part of their biology course.

ON THE HORIZON

A group of students are going to build a greenhouse this spring from redundant storm windows. Perhaps if they do a good job, and if it is used successfully it could lead the way toward a full sized installation on the science building roof?

MARRIAGES

K.H.C. '53 Patricia Ovans to James M. Davis in Vancouver on August 4, 1984.

K.H.C. '60 Janet Simms to Gordon J. Baldwin on September 14, 1984 in Cornwall.

K.H.C. '63 Linda Cowans to D. Brent Cochrane on June 24, 1984 in Toronto.

B.C.S. '68 Bruce Herring to Sandra Nairn in Huntingville on Aug. 25, 1984.

B.C.S. '75 Georgina Mundy to Dean Andrew Mikalauskas on July 21, 1984 in Portland, Ont.

B.C.S. '78 Linda Bishop to Alan Robinson on June 30, 1984 in North Hatley.

B.C.S. '75 William A. Price to Nicole Carlot Fortier BCS '75 in August 1984.

B.C.S. '77 Martin Kral to Laurie Paulette in Ste Adèle on August 11, 1984.

"GILLY DAY" AT BCS

Joan (Price) Winsor, Lucy (Molson) Sharp, Libby (Johnson) Nixon, Mary (Molson) Iversen, Marg (Porter) Étienne.

A radiant autumnal Eastern Township's day dawned on Sat., Sept. 22, 1984 when BCS welcomed the Old Girls of King's Hall for a day of fun at the School.

To greet the Old Girls when they arrived in the morning from 10 o'clock on in the front hall were a number of our own girls, some of whom, Vanessa Bramhill and Barbara Beaudinet were daughters of the King's Hall returning alumnae.

Also the Art Department had made a cheerful "welcome" banner under the direction of Brendan Trower which festooned centre stairs.

After coffee in the Board Room, we all went to the Little Theatre where Steve MacKnish, after labouring most of the night before, was ready with his slide presentation. This is becoming an annual tradition at BCS. It is a summation of all the activities, highlights and otherwise of all the students each year. All the Old Girls, found it a moving and telling presentation.

Then, out into the golden day, to the front steps to await the arrival of Gilly and Mlle Cailteux. It was the usual warm and wonderful scene when they arrived to greet each one of their old students by name.

After sherry in the Board Room, it was lunch in the Dining Hall, where the tables had been decorated by each of the Girls' Houses; Williams, Glass, Gillard and Ross.

The afternoon was spent in touring the school, culminating in a Tea Party at The Plantation where the sixth form Home Economics class (made up entirely of young men) had prepared beautiful

baked breads, cookies and delicacies for our enjoyment. The boys also served the tea and goodies. This was definitely a highlight! After a few short words from Gilly, the Headmaster and the new chairman of the Executive of the Board of the School, Shirley Stoker KHC '46, it was time to say "Goodbye." Another memorable day with Gilly had happened. Those of us who have known her are so grateful.

Those able to join us were: Mary Conduit, Margie Gurd, Naomi Jarvis-Read, Alex (Newman) Millward, Elizabeth (Price) MacKay, Victoria Stewart, Marcella Vickers, Catherine (Stewart) Hiess, Mary (Molson) Iversen, Margaret (Porter) Étienne, Shirley (Allan) Brown, Sheila (Williams) Campbell, Elvira (Holden) Walls, Helen (Corbett) Little, Shirley (Harrison) Stoker, Mary (Holt) Cowans, Alison (MacKenzie) MacNeil, Lynne (Maybury) McGuffin, Barbara (Drummond) Brodeur,

(Continued on page 10)

THANKSGIVING, INCOMPARABLE!

Why do we have Homecoming at BCS at Thanksgiving? Why do all the students stay at school, classes continue with no holiday?

A new student may well ask this question and the answer would be, "It is BCS Tradition." As we approach our sesquicentennial, let us tell you how this tradition began.

In the early days at BCS, boys wrote McGill entrance exams in order to matriculate from school. Indeed the ties with McGill were so close that in 1904 the Board of Directors invited a McGill professor to conduct examinations in the four upper forms of the school and submit a report on his findings. The first of these examiners was Dr. Stephen Leacock in 1904 and the practice continued for many years.

The results of the McGill exams were not made public until well after June closing. Therefore prize giving and matriculation ceremonies were held at Thanksgiving when parents and senior students returned for a splendid celebration.

In the sixties increasing numbers of students were attending universities outside Quebec. Students and parents were unable to return for the Thanksgiving prize giving ceremonies. As a result they were advanced to take place simultaneously with the June closing.

However, the tradition of hosting young alumni continued at BCS, to participate in sports.

(Continued on page 10)

Even with the massed strength of Coach Andy Johnson BCS '51 and sons Mark and Kurt, the teamwork was heavily in favour of the 1st Crease.

BISHOP'S COLLEGE SCHOOL DEVELOPMENT OFFICE AND REPORT ON THE ANNUAL FUND

MIKE McMASTER

It would seem appropriate to put in perspective the role of your Foundation, its present status, and the significance of its importance to the School and its future.

The B.C.S. Foundation was established in 1967 for the purpose of soliciting funds to be used in support of the School's programs. Money was raised, as it had been prior to 1967, for specific projects such as new facilities, and the requirements necessary to the amalgamation of B.C.S. and King's Hall. During this time the Foundation, supported by dedicated volunteers and generous benefactors, helped refurbish the School and maintain its first rate educational standards.

We entered the eighties with excellent facilities and a solid program, but we lacked a strong financial base so necessary to support scholarships and bursaries and the maintenance of a plant which is large and ageing. In 1982 a Foundation office was established with a full time Director and the School constituency was approached in the fall of 1982 and 1983 with the objective of building an Endowment Fund. Through the generosity of you, Foundations, parents, and friends we now have an Endowment with a base of \$1,000,000.

Parallel to the Foundation is the B.C.S. Alumni Association, an integral part of the B.C.S. community with its commitment to keeping us informed, gathering us together, and reminding us of our responsibility to an excellent School which has served us well. Long term support for the Alumni Association has resulted in significant contributions to scholarship funds and some facility improvements.

In April 1984 with the idea of coordinating the activities of the Foundation and the Alumni Association, a development office was formed within the framework of the Foundation. The objectives of the Alumni Association are unchanged, but we now have a staff dedicated to build interest and support for the School in a manner which should avoid any duplication and will call upon our help in a systematic fashion. This type of organization seems most appropriate in recognition of the many events that will precede the up-coming 150th Anniversary of the School, as well as the necessity to extend our recent effort towards raising Endowment Funds into the program of Annual Giving.

Annual Giving is imperative for our School and, whether large or small, it is your way to remember the alma mater. It is, and will continue to be set up so that your donation can be recorded in the manner you indicate. The present campaign, which commenced in November, suggested you consider supporting the scholarship and bursary program or the maintenance of the School plant. The Scholarship program is currently funded by the endowment of \$1,000,000 and includes \$45,000 from our present campaign. It is our intention to utilize this capital. The units would be valued on the performance of the funds. They should serve as a useful marketing tool for the raising of additional monies.

Designating monies for the maintenance of the School (\$42,000 since November) is important for the continuing need to upgrade our facilities. Please remember that donations in kind, whether they be computers, furniture, or other needs of the School, should also be considered.

The present financial status of the Foundation, as portrayed on page nine, is representative of the above projects as well as a most generous bequest of the late H. Weir Davis. It would appear that we are in good shape, but please remember that our efforts are designed to build a capital base from which to fund the School requirements. At the same time there is no doubt that major projects will be required to sustain the appearance of B.C.S. and to attract the calibre of staff and student to maintain the standards of the School.

It would be my hope that with, a sense of pride, a sincere effort, and a feeling of commitment, we will all approach the 150th anniversary of our School as a period in our history in which we rekindled or refocused our obligation to B.C.S. through active participation in the many anniversary events, as well as making an ongoing financial commitment to the best of our abilities.

DEVELOPMENT COMMITTEE: Mike McMaster — centre front, with Di Colby KHC '65 and David McLernon '62, John Cowans '54 and Athol Gordon '47. Absent: Danny Lalonde '72, Ursula Evans, taking picture.

Below is a list of Decade Captains and Year Representatives. All of these people have undertaken to contact their class-mates in an effort to gather news as well as to encourage participation in this year's Annual Campaign for Scholarships and facility improvements.

We at B.C.S. are so grateful for their support and work. We are fortunate indeed to have such a willing and dedicated team.

There are still a few openings for Class representatives in some years. If you would be willing to volunteer to assist in any of these years, we would be so delighted to hear from you at The Development Office, Bishop's College School, Lennoxville, Que. J1M 1Z8. Tel. No.: 819-564-5166, 819-564-6006.

DISCO FEVER!!!

On Thursday, Dec. 20th, 1984 nearly two hundred young alumni gathered at D.J.'s on Crescent St. in Montreal. Many of our number visit D.J.'s often but for those of us entering the "seer and yellow" of thirty years or more, it was a novel, surprisingly fun if ear-splitting experience.

Regardless of the decibel level, Old Boys and Old Girls were seeing each other in many cases after a long absence, some for the first time since leaving school. All considered the evening a great success — even the Headmaster took his leave reluctantly from the swinging throng of alums. Our voices only took three days to recuperate.

Hugh Hallward BCS '44 had presented us with a sweater belonging to Pete Rose in his days with the Expos. Tickets had been sold and were also bought that night before the drawing which took place about midnight. There was one Old Boy who really wanted that sweater. Imagine our delight when his name was drawn. Congratulations Cliff Turner!

ONLY IN QUEBEC! EARLY ACCEPTANCE

EARLY CONFIRMED
ACCEPTANCES (E.C.A.'s)
FOR OUR
VII FORM STUDENTS
ARE ARRIVING AT AN
UNPRECEDENTED RATE

FOURTEEN OF THIRTY-NINE
HAVE BEEN OFFERED
PLACES AT TRINITY
COLLEGE, TORONTO,
QUEEN'S, TRENT
& DALHOUSIE

A VERY POSITIVE
COMMENT ON ALL,
ASSOCIATED WITH THIS
SUCCESS!
CONGRATULATIONS!

THANKSGIVING (Continued from page 7)

Thanksgiving 1984 was no exception. The first game, soccer, got off to a slow start as it was difficult to find enough wide awake ladies to challenge the 1st Team Soccer. After much friendly discussion Coach Peacock got a semblance of a game started which finished with the school recording a 3-1 victory. The school's goal scorers were Arina deLeeuw, Avery Mackay and Trish Shaddick, the lone alumni scorer, Heather Calder, we think.

The girls were then coerced to the Field Hockey pitch where they were just as successful, losing 3-0. The goal scorers for the school were Jenny Livesey (2) and Maria-Luisa Rivera. Nancy Rees. Theo Brinckman and Anita Ho get special mention for playing in both games. BCS keenness and enthusiasm go on still after graduation.

Meanwhile Soccer was being battled in an up and down battle with the Major's team winning 5-2. School boy John Bunge celebrated his return to action with 2 goals and singles were recorded by Julian Silva, Stephan Thorpe and Tony Torriana. The Old Boys replied with goals by Michael Stauffer and Jeremiah Jonas.

The fourth and final game was slated for 2 p.m. and the Football Team completed the sweep for the School. The players wearing the white school sweaters won 12-0 on touchdowns by Robert Fraser and Andrew Hall. Old Boys, Peter McMaster, Chris Ronald, Dumas Maugile, David Doheny and Richard Hoy skillfully helped the School team. The opposition was Andrew Setlakwe, John Appleby, Robert Takas, Charles Cournoyer, Ross Gilchrist, Geof Hall, Sean Pinck, Stuart MacTavish, Philip Provencher, Simon Ayre, Mike Laframboise, Luc Duval, Marc Duquette, Jeff Reford, Robert Morris, Michael Murdoch, Tim Price, Tony Ross, Serge Ouimet, Marc Quinet, Marc Bibeau, Tim Bradley, Peter Provencher, Bill Scott, Andrew Bisset and Kurt Johnson.

As one Old Boy was heard to remark, "It was fun playing the game so that we can work up a thirst." At the reception, Mrs. Brady, the matron presided over

the Guest Book as Lyn Matthews did a roaring trade in raffle tickets for Pete Rose's sweater.

Those who were there were: Andy Gaudet, Bruce Robbins, Charles Laplante, Stephane Deslauriers, Jamie Stearns, Nikole Reford, Sara Price, Samantha Mahfood, Cynthia Ross, Sherrie McMaster, Michele Mahfood, Lucy Ross, Fiona Thraves, John Scott, Ian Graham, Sheila Love, Andrew Johnson, Nina Munk, Heather Calder, Jill Booth, José Esté, Tony Ross, Caitlin Adamson, Marie-Sue Allard, Kristina Johnston, Michelle Berlanda, France Bernard, Jacquie Scott, Jolly Goodson, John Dunn, John Hallward, Hima Mathew, Mike Stauffer, Nelson Morales-Bello, Theadora Brinckman, Patty Barr, Anita Ho, Richard Hoy, Andrew Setlakwe, Peter McMaster, John Appleby, Scott Hyndman, John Gilmour, David Sanderson, Luc Duval, Marc Quinet, Andrew Stairs, Charles Beaudinet, Arnulf Koegler, Mark Johnson, Tim Bradley, Bev (Bryant) Bradley, Harvy Simkovits, Brian MacFarlane, Michael Zinay, Michael Lacasse, Jannie McInnes, Owen Hines, Charles Cournoyer, Dumas Maugile, Ross Gilchrist, Brett Halna-du Fretay, Yvonne Westphal, Matt Ullman, Geoff Hall, Baldwin (O.J.) Evans, Kurt Johnson, Peter Sanchez, Bob Cytrynbaum, Craig Fields, Tim Price as well as some who did not sign the book and four who did, completely illegibly.

Cliff Goodwin
& Ursula Evans

GILLY DAY (Continued from page 7)

Dolly Nesbitt, Adelaide St. Dizier. (Dolly and Adelaide were the most senior alumna present, coming from the days of Laura Joll. They graduated in 1918.) Judy (McCulloch) Morton, Sue (Teakle) Whittall, Anne (Boright) Gregory, Sally (Sharwood) Drummond, Lucille (Molson) Sharp, Dorothy Hewson, Joan (Price) Winsor, Libby (Johnson) Nixon, Jill (Rankin) Cobbett, Gill (Angus) Côté, Kathy (Winsor) Leopold, Belinda (Kirby) Shepard, Margot (Grant) Kyle, Lalage (Wright) Hackett, Rae (McCulloch) Heenan, Diana (Bryant) Colby, Bev (Bryant) Colby, Pussy (Ritchie) Malone and Audrey (Esler) Savage.

GILLARD LECTURES:

ASTRONAUT: JIM IRWIN

Colonel Jim Irwin, astronaut, a member of the support crew for Apollo 10 and backup lunar module pilot for Apollo 12 served as lunar module pilot on the Apollo 15 mission.

Jim Irwin was the first Gillard Lecturer for this season at Bishop's College School. On Nov. 28, 1984, he held the audience spell-bound with his own easy style of speaking. He described his exceptional experiences as well as showed a film, a travalogue of a place few of us are likely to visit, "THE MOON." The Apollo 15 mission in 1971 was the fourth manned lunar landing and was distinguished by the first use of the lunar Rover vehicle, the exploration of Hadley Rille and the Apennine Mountains of the moon. On this flight Col. Irwin logged 295 hours, 11 minutes in space of which 19 hours, 46 minutes were spent outside the aircraft.

Jim says himself, "Not only do I wish to show the high adventure of space exploration but also the satisfaction of developing one's life with purpose." This was exactly what Jim did in his address, he encouraged us all to prepare and to develop.

COLONEL JIM IRWIN

ECONOMIST:

WM VAN DUSEN WISHARD

For the past 14 years, Mr. Wishard has lived in Washington. He has served in the government and has been a private consultant on corporate public policy. He prepares public information pieces for the Department of Commerce which express Administration policy and analyzes the impact on American business of world economic, technological and social trends.

Mr. Wishard addressed the student body on Friday, January 18th as our second Gillard lecturer. He gave a motivational presentation, a challenge to be leaders at a time in our history when Mr. Wishard perceives that we are moving from the Industrial Age to a Global technocratic world of instant communication. He called for a deepening of personal understanding and knowledge to counteract the loneliness and despair which is so often uttered by our culture.

Wm. Van Dusen Wishard has worked and travelled in over thirty countries. He served in the United States Army and received the Bronze Star in the Korean War. Before entering government service, Mr. Wishard was in charge of scheduling for "Up with People."

NEWS OF THE CLASSES

00-29

B.C.S. '27 Bernice (Beaumont) Sharp, is recording secretary for two Garden Clubs. She does all kinds of sewing and paints. She is also writing an autobiography.
